

**FOR IMMEDIATE RELEASE**

## **UBCC Partners with Cennarius to Offer “Pay-As-You-Go” Workers Compensation Insurance with Coverage For Almost All Payroll Clients, Including High-Risk Businesses**

*Cennarius Matches Businesses With Over 20 Insurance Carriers, Providing Payroll Services Clients With The Best Value for Their Money and a Competitive Advantage over ADP and PayChex*

**July 16, 2009 – Taos, New Mexico** - Universal Business Computing Company ([www.ubcc.com](http://www.ubcc.com)), the leading provider of high volume, high productivity software for Payroll and Write-Up professionals, announced today that they have partnered with Cennarius, one of the nation’s most respected Workers’ Compensation Insurance providers, to allow all of their payroll clients to offer “Pay-As-You-Go” Workers’ Compensation Insurance to all clients, including high-risk businesses. Cennarius matches UBCC business clients with over twenty (20) insurance carriers to ensure they will enjoy the most competitive rates and best value for their money.

“Cennarius Pay-As-You-Go Workers’ Compensation Insurance solves the single annual premium problem. No longer do businesses need to pay a full year in advance. If their head count increases or decreases the adjustment to the premium is automatic. This allows our payroll clients a strategic advantage over other payroll service providers such as ADP or PayChex because of their limited offerings,” said Ken Garen, CPA, Co-founder and President of UBCC. Cennarius calculates workers’ compensation premium for each pay period as they occur, and businesses are not required to pay a large up-front premium deposit, or, incur as costly finance and audit charges – which eliminates audit surprises at the end of the policy year.

“We are excited about this partnership for many reasons, most notably because it solves a significant unmet need. Most Pay-As-You-Go Workers Compensation plans are very limited in the business that they will accept. We are providing our clients with a significant competitive advantage over ADP and PayChex, because of the depth and breath of this offering,” said Garen. Cennarius eliminates unnecessary Workers Compensation annual premium pre-payment financial hardship on businesses – especially in difficult economic times. “Whether staffing levels change due to the economy or the seasonality of a business, by teaming with Cennarius we are providing the ultimate level of flexibility to which our (UBCC) clients have grown accustomed,” continued Garen.

### **About Universal Business Computing Company (UBCC)**

Founded in 1981, UBCC offers four different packages to professional accounting firms, payroll service bureaus and commercial businesses: Client Data Center, Payroll Service Bureau, PEO Enterprise, and Real-Time Accounting for Business. Modules include: Unified Payroll, General

Ledger, Accounts Payable, Accounts Receivable, Bank Reconciliation, Depreciation, Order Billing, Inventory Management, and Job Management.
