

FOR IMMEDIATE RELEASE

UBCC Enhances Sales Analysis and Financial Statement Programs

June 08, 2010 – TAOS, NM. – Universal Business Computing Company (www.ubcc.com), the leading provider of high volume, high productivity payroll and accounting software, announces their enhanced single step Sales Analysis Program that results in a much faster outcome than previously possible.

The enhancement to UBCC's Sales Analysis Program allows for the generation of Sales Analysis Reports for one's practice and for their clients results in greater overall productivity. "This enhancement supports our ongoing quest to drive productivity by eliminating all hour glasses so that no one ever has to wait to work," said Ken Garen, CPA President and Co-Founder of UBCC.

UBCC also announced a significant enhancement of the General Ledger Financial Statement for rolling 12 or 13-period years by adding automatic cross-year totals and automated grand totals. Additionally, all information can be automatically exported to a spreadsheet or PDF file for more detailed analysis and shared with one's clients for their use. "This enhancement has completely eliminated manual calculations and subtotals from this process, which increases the productivity and maximizes the work done at each setting," continued Garen.
