

FOR IMMEDIATE RELEASE

2010 UBCC Client Conference a Grand Success

*Hands-on Learning, Best-Practice Sharing, and Software Productivity Features Highlighted
During the 3-Day Annual Event*

October 07, 2010 – TAOS, NM. – Universal Business Computing Company (www.ubcc.com), the leading provider of high volume, high productivity payroll and accounting software, announces their 2010 UBCC Client Conference was a grand success.

UBCC clients from across the nation gathered on September 22-24, 2010 at the Pheasant Run Resort in St. Charles, IL, the Midwest's largest entertainment resort for the annual UBCC Client Conference. "Our conference is unique because of the high level of interaction between respected peers and top level UBCC staff, which results in a lot of strategizing, best practice sharing, and Write-Up and payroll firm problem-solving throughout the conference," said Ken Garen, CPA, Co-founder and President of UBCC.

This year's conference included sessions addressing Write Up, Bank Reconciliation, Depreciation, Accounts Receivable, Accounts Payable and all aspects of Payroll. "Our clients get great benefit from our sessions geared to exploring the productivity and power of the UBCC software, and appreciate our support staff being always there to address any questions that arise," continued Garen."

UBCC software stands apart from the competitors due to the highly customizable productivity features and the technical and customer support team's rapid response to client requests for change. "At the 2009 conference attendees requested 56 changes for the UBCC software, as of today, 52 of those changes have been implemented. At the conference this year, 26 requests were made, and we are proud to report that 19 those requests have already been implemented," commented Garen.
